Exemption Section 30

Having received a request from the Minister of Natural Resources that an undertaking, namely:

The Activity of constructing or implementing:

- (1) fishways, dredging, shoreline and bank stabilization, water level control, ponds;
- (2) access points and docks;
- (3) outdoor recreation trails;
- (4) camping sites;

which are currently exempted under Exemption Order MNR-8 from the application of the Act until July 1, 1979,

be further exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following damage or interference with the persons indicated will occur:

- 1. The Crown and the public will be interfered with by the delay in planning and implementing of those projects which are or will be scheduled to proceed within the period of the exemption,

Having weighed such injury, damage and interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment, which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order, subject to the terms and conditions set out below, that the undertaking is exempt from the application of the Act for the following reasons:

- 1. The Ministry of Natural Resources has prepared and submitted class environmental assessments for some of the projects included in the activity exempt under Order MNR-8 but has not yet had sufficient time to complete the class environmental assessments for the projects included in the activity exempted by this order.
- 2. The Ministry of Natural Resources will be able to incorporate into the class environ-

mental assessments for projects included in the activity exempt under this order procedures being established in certain studies now underway, including:

- environmental evaluation methodology developed by the Shoreland Management Study;
- relevant sections of the Lakeshore Capacity Study being conducted by the Ministries of Housing, Environment and Natural Resources;
- relevant findings regarding the studies associated with the South Nation Channelization project;

3. The protection, conservation and wise management of the environment will be provided for in the interim by the use of Ministry of Natural Resources approval and review procedures until the process of phasing in the environmental assessment system is complete and by the observance of certain Acts relating to the natural environment including:

The Environmental Protection Act, 1971
 The Endangered Species Act, 1971
 Fisheries Act (Can.)
 The Game and Fish Act
 The Lakes and Rivers Improvement Act

This exemption is subject to the following terms and conditions:

1. This exemption expires on September 30, 1980 and shall not apply to any project within the undertaking for which an approval to proceed has been received under the Act;
2. Environmental assessments covering those projects making up the activity exempted hereby shall be submitted for approval to the Minister of the Environment by January 30, 1980;
3. Where work which would otherwise be part of the undertaking exempted hereunder is being carried out and an approval to proceed under the Act has been obtained for an undertaking which includes such work, the work shall not be part of the undertaking exempted hereunder but shall be carried out in accordance with such approval;
4. A copy of any plan or project description with respect to or part of a project within the undertaking shall, before the implementation of the project commences, be made available to the public at a local office of the Ministry of Natural Resources and a copy shall also be sent to the Environmental Approvals Branch of the Ministry of the Environment to be kept with the records of environmental assessments and made available to the public in the same way as such records.

This order comes into force and has effect on and after July 1, 1979.

Dated at Toronto, this 23rd day of August, 1979.

HARRY PARROTT,
 Minister of the Environment.

 O.C. No. 1999/79

MNR-19

Exemption Section 30

Having received class environmental assessments with respect to projects within the undertaking exempted by Order MNR-8, published in THE ONTARIO GAZETTE, November 13, 1976, and whereas the exemption for the undertaking, namely:

The Activity of constructing or implementing:

- (1) dams, dykes;
- (2) landfill sites, dumps and transfer stations;
- (3) canoe routes;
- (4) the reclamation of lakes by use of chemicals, mechanical devices or other methods;

under the above Order will expire July 1, 1979, and;

Having been advised that if the projects within the undertaking are subject to the application of the Act while the class environmental assessments are being processed, the following injury, damage or interference with the persons indicated will occur:

1. The Crown and the public will be interfered with by the delay in implementing the plans and associated projects.

Having weighed such injury, damage or interference with the betterment of the people of the whole or part of Ontario by the protection, conservation and wise management in Ontario of the environment, which would result from the projects within the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order, subject to the terms and conditions set out below, that the projects within the undertaking are exempt from the application of the Act for the following reasons:

1. The Ministry of Natural Resources will carry out individual environmental assessment procedures for those projects within the undertaking which are liable to have such significant effects that an individual environmental assessment would be carried out as proposed in the class environmental assessments as submitted and not yet approved; and
2. Satisfactory progress has been made towards the approval of the projects which are part of the undertaking for which class environmental assessments have been submitted and not yet approved; and
3. The acceptance of the class environmental assessments for:
 - (a) dams and dykes;
 - (b) landfill sites, dumps and transfer stations;

has been delayed by the suspension of their reviews at the request of the proponent, in order to resolve deficiencies in the environmental assessments that were identified by the Government reviewers; and

4. Revisions are expected to be submitted by Ministry of Natural Resources in response to the deficiencies identified by the Government reviewers in the environmental assessments mentioned in 3 above; however, approval to proceed will not be able to be given by July 1, 1979; and
5. I have been advised by the Minister of Natural Resources that he will apply the provisions of the Class Environmental Assessments as submitted and not yet approved to some of the projects within the proposed undertaking to gain experience so that the Class Environmental Assessments may be readily applied to the undertaking after they are approved, and that the Ministry of Natural Resources will advise the Environmental Assessment Section of the Ministry of the Environment of the progress being made from time to time in applying such provisions.

This exemption is subject to the following terms and conditions:

1. Where work which would otherwise be part of the undertaking exempted hereunder is being carried out and an approval to proceed under the Act has been obtained for an undertaking which includes such work, the work shall not be part of the undertaking exempted hereunder but shall be carried out in accordance with such approval;
2. This exemption shall terminate on March 31, 1980 and shall not apply to any project within the undertaking for which an approval to proceed has been received under the Act.

This order comes into force and has effect on and after July 1, 1979.

Treasurer's Sale of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Ministry of Government Services for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Ministry of Natural Resources whether or not the land or any part can be purchased or leased from the Ministry. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.

**The Environmental
Assessment Act, 1975**

MNR-22

**THE ENVIRONMENTAL ASSESSMENT
ACT, 1975**

Exemption Section 30

Having received a request from the Minister of Natural Resources that an undertaking, namely:

The activity of constructing or implementing Junior Ranger Camps accommodating 24 or fewer Junior Rangers,

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act the following injury, damage or interference with the persons and property indicated will occur:

The Crown and the public will be interfered with by: a loss of opportunity in summer youth employment as Junior Rangers; interference with the delivery of a Ministry of Natural Resources' objective of education and training, and the carrying out of auxiliary work projects which are part of the undertaking.

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order, subject to the terms and conditions set out below, that the undertaking is exempt from the application of the Act for the following reasons:

- 1. The undertaking is for its greatest part comprised of other undertakings which are subject to the Act and for which class

environmental assessments are being prepared by the Ministry of Natural Resources.

The remaining parts of the undertaking are sufficiently small in scale that they do not contribute significant environmental impact to the point of requiring an environmental assessment.

2. This order will be reviewed periodically after considering the reports submitted under Condition 4 and the work carried out in connection with the Camps.

This exemption is subject to the following terms and conditions:

1. The Ministry of Natural Resources will continue its voluntary compliance with *The Ontario Water Resources Act* in carrying out the undertaking.
2. Where a Junior Ranger Camp is constructed in association with another undertaking subject to the Act, then that Camp will be treated as a component of the other undertaking and shall not be part of the undertaking exempt by this order.
3. Where the carrying out of the undertaking requires that some activity, for which an environmental assessment has been done and an approval to proceed received, be conducted, that activity shall be carried out

in accordance with the environmental assessment and approval to proceed.

4. The Ministry of Natural Resources will prepare and maintain a summary report giving a short description of each Junior Ranger Camp. The description will indicate the following: camp name, camp location, ultimate Junior Ranger accommodation capacity, special features or facilities, a brief description of the work proposed to be carried out by the Junior Rangers, intended phasing of construction and dates of operation of the camp. The summary report will be made available to the public at the appropriate local office of the Ministry of Natural Resources and submitted to the Environmental Approvals Branch of the Ministry of the Environment, at least 30 days before the commencement of construction or operation of the camp.

This order comes into force and has effect on and after the date upon which it is signed.

Dated at Toronto, this 13th day of September, 1979.

HARRY PARROTT, D.D.S.,
Minister of the Environment.

Treasurer's Sale of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Ministry of Government Services for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Ministry of Natural Resources whether or not the land or any part can be purchased or leased from the Ministry. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.

CITY OF TORONTO, MUNICIPALITY OF METROPOLITAN TORONTO

Annual Report — Criminal Code

JANUARY 1st, 1978 TO DECEMBER 31st, 1978

SECTION 178.22 CRIMINAL CODE

Pursuant to Section 178.22 (5) of the *Criminal Code* of Canada, the following is a Report for the period January 1st, 1978 to December 31st, 1978, relating to the authorizations for which agents specially designated in writing by me for the purposes of Section 178.12 of the *Criminal Code* have made applications and the interceptions made thereunder.

Section 178.22 (3) (b) of the *Criminal Code* requires me to set forth a general assessment of the importance of the interception of private communications for the investigation, detection, prevention and prosecution of offences against the *Criminal Code* of Canada.

No police officers have been designated for the purpose of making emergency applications. All applications for authorizations have been made by my agents.

This is the Fourth Annual Report to be tabled during my tenure as Attorney General. In previous Reports have expressed my own views and also each year have asked the major police forces in the Province for their comments on the value of this legislation. All of the police forces have indicated that this particular legislation is an invaluable investigative tool with respect to those offences stipulated in Part IV.1 of the *Criminal Code* as offences for which authorizations may be sought. Accordingly, I do not feel that it is necessary to repeat these comments again this year.

In my opinion the importance of the interception of private communications for the detection, prevention and prosecution of offences against the *Criminal Code* is without question.

A resume of procedure supplied to me by one of our major forces indicates that an investigating officer must seek the approval of at least two Senior Police Officers before he is even allowed to consult one of my agents with a view to applying for an authorization. He then must seek the approval of a designated agent before it is presented to a Judge of the Supreme or County Court. Of course it is the duty of my agent to ensure that any application for an authorization comes strictly within the requirements of the statute before he presents the application to a Judge for his decision.

Refusals by Senior Police Officers and by designated agents are numerous. It is not required to report these refusals. The thoroughness of these screening procedures is indicated in the fact that no refusals were reported to this office on the judicial level in 1978.

With the restrictions imposed by the legislation itself, with the intense screening at the Police and designated agent level and with the final decision resting in the hands of a Judge of the Supreme or County Court I am confident that this valuable investigative tool is not being abused.

Court decisions in 1977 appeared to preclude a "renewal" of an authorization if any changes were to be made except as to time. Accordingly, many agents sought authorizations which prior to these decisions would have been "renewals". These are included statistically as "new" authorizations. Of the 237 authorizations granted in 1978, 37 were related to previous authorizations or were the product of continuing investigations. A large number of these authorizations previously might have been included as "renewals". This would have given a more accurate picture of the number of actual investigations which remained approximately the same as in 1977.

Most charges which arose in 1978 authorizations are still before the courts or have not yet come before the courts. As a result, the number of resultant convictions appears comparatively low. These will be updated in the 1979 report.

The Environmental Assessment Act, 1975

MOE-17

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

Exemption Section 30

Having received a request from the Ministry of the Environment that an undertaking, namely:

The construction and operation of the modified Welland water treatment plant expansion for which an environmental assessment has been accepted and a conditional approval to proceed dated October 23, 1979 has been issued by me,

be exempted from the application of certain provisions of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of certain provisions of the Act, the following injury, damage or interference with the persons and property indicated will occur:

1. The public will be interfered with by the resulting delays in construction and increase in costs of the project by providing separate treatment for backwash water as originally proposed;

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order that the undertaking is exempt from the application of sections 16 and 17 of the Act with respect to the installation of backwash water treatment

facilities as provided for in paragraph iii of condition 1 of the conditions of approval given with my approval of the undertaking dated the 23rd day of October, 1978, for the following reasons:

1. The Regional Municipality of Niagara which is responsible for financing the costs of the undertaking has had the amount of financing available through the Province reduced and therefore has to carry out the undertaking on a smaller scale;
2. Due to a proposed expansion of a sewage treatment plant, a more economical alternative to installing backwash water treatment facilities at the water treatment plant has been proposed;
3. The protection, conservation, and wise management of the environment will be sufficiently provided for by the provision of backwash water treatment by means of the sewage treatment plant.

This exemption is subject to the following terms and conditions:

1. This exemption only applies with respect to the provision of backwash water treatment facilities at the water treatment plant so that the water treatment plant expansion may be undertaken notwithstanding the provisions of sections 16 and 17 of the Act which require

that the undertaking be carried out in accordance with the terms and conditions imposed by the Minister in giving approval to proceed with the undertaking or require that a new environmental assessment be prepared for the change;

2. Instead of providing the backwash treatment facilities at the water treatment plant as specified in the approval to proceed for the undertaking, the water treatment plant shall be connected by sanitary sewer to a sewage works which can treat the backwash water not later than the earlier of:

(a) The in-service date of any part of the expansion of the water treatment plant, and

(b) December 31, 1981.

This order comes into force and has effect on or after the date upon which it is approved by the Lieutenant Governor in Council.

Dated at Toronto, this 17th day of October, 1979.

HARRY C. PARROTT, D.D.S.,
Minister of the Environment.
